

My favorite two Japanese photographers are,

Kayo Ume (<http://japan.digitaldj-network.com/archives/51856149.html>) She doesn't have official site so I attach twitter's page that upload lots of her photos.

and

Mika Ninagawa (<http://www.ninamika.com/en/photographs/index.html> : English site).

Kayo's photos are soooo amusing and humorous. She takes photos of everyday life that we take for granted and neglect. Once you see her works, you'll swear to bring your camera with you everyday not to miss funny timing!

Mika's photos are all vivid colour and wonderful! She is well known in Japan and abroad.
