---

I am really into sports that's why I chose Laci Perényi, one of the most renowned German sport photographers. Perényi, who was born in Bratislava, Slovakia, was in the 1970ies a competitive athlete himself and a member of the first German swimming national team. His work as a sports photographer he started in 1974 and among many other national and international events of all sports, he was accredited as a sport photographer at 15 Olympic Games and 8 FIFA World Cups. What's so special about him? He doesn't only want to document the competitions but he wants to take "other" pictures. He takes them from other places, doesn't want to show all the advertising around it and plays with the light. His sports pictures are creative and art. Have a look... <http://www.lp-sportsart.de/>
